

UDOT Project Insurance Basics

Here are some basic rules for determining the type of Insurance coverage to use when designing a UDOT project and what provisions are needed for assembly of the Contract Special Provisions book.

Here are some things to consider when selecting the ‘Type’ of coverage to use.

Type 1:

Contractor Supplied

- Type of insurance used on projects with an estimated construction cost of less than \$4,000,000.00.
- Traditional method where Contractor provides insurance coverage based on required coverage limits listed in current version of 00820 Supplemental Specification.
- Coverage and limits can be modified by UDOT’s Risk Mgmt. Group through the required Risk Assessment process.

Advertising Requirements:

Copy of Risk Assessment
00820 Supplemental in project book
00820 Special Provision (only required if basic required coverage has been modified by Risk Mgmt.)

Type 2: Insurance Option; Contractor Supplied or OCIP

- For all projects greater than \$4,000,000.00 that the Department has not selected as OCIP only projects (Owner Controlled Insurance Policy)
- Coverage and limits can be modified by UDOT’s Risk Mgmt. Group through the required Risk Assessment process.
- Contractor chooses which Type of insurance to use at time of bid

Advertising Requirements:

Alternate Bid Option for insurance in Engineer’s Estimate ([see instructions](#))
Copy of Risk Assessment
00820 Supplemental in project book
00820 Special Provision (only required if basic required coverage or limits (00820 Supp.) has been modified by Risk Mgmt.)

Type 3: OCIP only

- Projects with a bid value greater than \$50,000,000.00
 - Can be used on smaller projects when Risk Assessment identifies higher potential for Departmental Risk.
- May be recommended by Risk Mgmt. On Projects < \$50,000,000. Final Decision by Project Manager

Advertising Requirements:

Copy of Risk Assessment
00820 Supplemental in project book
00820 Special Provision in project book to revise section 1.16 ([recommended verbage](#))
OCIP General Conditions in project book ([example of Table of Contents](#))

Project insurance option

Projects with a contract value of \$3 million or less are not eligible for OCIP. Since occasionally the low bid is significantly below the Engineer's estimate, only contracts with an Engineer's estimate greater than \$4 million dollars shall include the option for a contractor to choose either OCIP or Contractor supplied insurance. This will be done on projects meeting the above criteria, submitted for advertising after November 15, 2005, by adding alternate bid items to the Engineers Estimate in PDBS under the Innovative Contracting detail as described in the attached instructions. Contact Thomas LeHolm, 801-965-4344, or email; tleholm@utah.gov if you have any questions.

If the contractor chooses to enroll in OCIP, the contractor will enter a value equal to 3% of the Contractor's total bid in the OCIP line item. This will be used for determination of low bid only. This will not be a pay item and will not be considered as part of the project budget for comparison against the commission approved funding. Contingency in the project budget will not be required for this item. The assumption is that if a contractor chooses to enroll in OCIP, the overall costs of the project will be less than it would have been if the contractor provided his own insurance. This reduction in the bid can be used to fund the OCIP.

**PDBS Instruction for
Alternate Bid Option
OCIP vs. Contractor Supplied Insurance**

1. Select 109- INNOVATIVE CONTRACTING Detail for Alternate Bid # 1. You can leave the 'Description' column blank if you want. If you do use a Description, both Alternate Detail Descriptions must be the same.
2. Enter Alt. Bid Grp # 1 & Alt. Bid #1
3. Enter Item from lookup table and modify Item Description for Project Insurance – Contractor Supplied.
4. Enter Unit Price of \$1.00
5. Select 109- INNOVATIVE CONTRACTING Detail for Alternate Bid # 2.
6. Enter Alt. Bid Grp #1 & Alt. Bid #2
7. Enter Item from lookup table and modify Item # (increase by 1) and Item Description; Project Insurance – OCIP.
8. Enter Unit Price of \$1.00

The Advertising Section will add a ****Note**** to the Cover page notifying the Contractor of the Special Bidding Instructions contained in Supp. Spec 00820M. The new 00820M supplemental must be included in the contract documents. The UDOT OCIP General Conditions is added by reference; 00820M Section 1.2(C), and can be found on our website; <http://www.dot.utah.gov/index.php?m=c&tid=333> or via a link on the Standards Webpage 2005 Special Provision references at; <http://www.udot.utah.gov/index.php/m=c/tid=719>
Additional coverage identified through a Risk Assessment (such as Railroad Protective) would need to be added to the required coverage(s) under Alternate #1, in an 00820M Special Provision.
